### DETAILED ACTION

1. This application has been examined. The terminal disclaimer filed 6/13/05 has been entered.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims *1,2,5-10,12-16 and 18-22* are rejected under 35 U.S.C. 102(e) as being anticipated by Medl (6108004).

4. Regarding claim 1, Medl shows the computer based method of visually delineating a relationship between related graphical objects in a graphical user interface (Figures 1,4, column 8 lines 44-54), including: associating at least one icon with at least two diverse but related graphical objects, the icon having an associated color scheme (Figures 1, 4, 6, 7, column 10 lines 15-27, 34- 58, column 11 lines 25-40), when one of the related objects is displayed, displaying the icon within the graphical object (Figures

1, 2, 3A, 4, column 13 lines 34-65), wherein the displayed graphical objects are recognizable as related by the persistence of the icon with the associated color scheme in the displayed graphical objects (column 13 lines 15-35, 43-60, column 14 lines 33-56).

5. Regarding claim 2, the icon is displayed within a visible portion of the graphical object (Figures 1, 3A, 4).

6. Regarding claim 5, the persistence of the icon provides user assistance when traversing a series of graphical templates (column 13 lines 25-45 for example).

7. Regarding claim 6, the objects include windows (Figures 1, 3A, 4 – only one of the items listed in the claim need be shown).

8. Claim 7 shows the same features as claim 1 and is rejected for the same reasons.

9. Regarding claim 8, the objects are located within a graphical user interface (Figure 1 for example, Abstract).

10. Claims 9-10 shows the same features as claims 6-7 and are rejected for the same reasons respectively.

11. Regarding claim 12, in addition to that mentioned for claim 1, note the progression of the objects to reflect an evolution of development of the first object in the series (column 13 lines 20-40).

12. Regarding claim 13, the persistence of the icon provides user assistance when traversing a series of graphical templates (column 13 lines 25-45 for example).

13. Regarding claim 14, the series of objects represent a user assistance wizard (column 13 lines 20-45).

14. Claims 15-16 and 18 show the same features as claims 1-2 and 5 respectively and are rejected for the same reasons.

15. Claims 19-20 show the same features as claims 12 and 14 respectively and are rejected for the same reasons.

16. Claims 21-22 show the same features as claims 1 and 5 respectively and are rejected for the same reasons.

17. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection. Note though that the double patenting rejection has been removed.

18. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

19. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven P. Sax whose telephone number is (571) 272-4072. The examiner can normally be reached on Monday thru Friday, 8:30 AM - 5:00 PM.
